

How transportation (cost, lead time, flexibility, ...) affects my business?

Safety regulations, capacity, inventory, customer service and responsiveness, how can these variables improve my business?

Transportation Management

Two-Day seminar

December 3-4, 2009

Gateway Center, University of North Texas

Who Should Attend:

- Transportation managers and supervisors
- Personnel involve in transportation design
- Individuals seeking an understanding of what drives transportation decisions and the trade-offs in transportation design.

The key transportation processes covered are:

- Factors affecting transportation decisions
- Design options for a transportation network
- Trade-offs in transportation network design
- Intermodal transportation and his benefits and disadvantages
- Tailored Transportation

How to Register:
